

TUBULAR ARM BOLT CUTTERS 600MM CUTTING CAPACITY 7MM

- Efficient with a cutting capacity of 7mm at 160kg/mm²
- Forged alloy steel (chromium-molybdenum) for strength and cutting performance
- Forged parts for more power
- Tubular arms for minimum weight
- 2 types of cut: axial cut and flush cut
- Quick and easy jaw adjustment using eccentric screws
- Protection against loosening of eccentric screws
- Blades (available separately with screws)
- Solvent-resistant, ergonomic, comfortable handles
- Good visibility on work site thanks to the yellow finish and phosphated jaws
- Complies with GSA A-A-3047 standards
- Data sheet included
